SERIOUS PRINTING
FOR SERIOUS WORK.

You're serious about your job, and you need systems that get the work done: The P-5536i MFP or P-6036i MFP black and white multifunctional system is the perfect fit for your office. Its high output speed combined with 1,200 x 1,200 dpi resolution and a large touch display make it easy to use, and its cutting-edge security and mobility functions are the ideal way to simplify your work day. What's more, the standard HyPAS™ interface allows for the integration of customer-specific software solutions in addition to HyPAS apps, leaving you free to focus on the work that matters most.

HIGHLIGHTS:

Extra efficiency: Whether you need to print, send or archive large volumes of documents, the P-5536i MFP and P-6036i MFP can handle the job with ease. These systems print and copy at lightning-fast speeds of up to 55 or 60 A4 pages per minute respectively, and they even scan up to 120 images per minute in duplex mode. The standard dual-scan feeder not only protects your valuable originals; with the continuous scan function, it can also process more than 100 originals in one operation.

Unparalleled mobility: The free Mobile Print app for Android and Apple iOS compatible devices is available for mobile printing and scanning via smartphone or tablet. The optional wireless card additionally supports the Apple AirPrint protocol and Wi-Fi Direct. Naturally, you can also take the conventional route, integrating the systems into your network or operating them via USB.

Highly secure: These two systems effectively protect your sensitive data from access by unauthorised parties. You can use the 'private printing' function to assign a proprietary password to a print job, or you can use the card reader* in connection with the Card Authentication Kit for individual users to identify themselves. If the system is equipped with an optional hard drive, the Data Security Kit* will protect the data on it in accordance with international security standards.

Incredibly extensive: The wide-ranging standard features include a dual scan feeder and 500-sheet universal cassette and can be easily expanded at any time. Up to four optional 500-sheet cassettes, an additional 250-sheet output tray and a manual stapler for 20 sheets are available, allowing you to tackle major print jobs quickly and professionally at all times. And the finishing touch is the Scan Extension Kit* for creating text-searchable PDF files.
