

Like it was made just for you!

Do you need new employees to increase your business's productivity? Don't bother with job adverts and interviews – all you need is one of our A4 black and white multifunctional systems. The P-4531 MFP and P-4536 MFP deliver impressive performance in a compact package: rapid printing and copying at 45 A4 pages per minute, as well as productive colour scanning and – with the P-4536 MFP – faxing. What's more, the system is quiet as a whisper, environmentally friendly and even protects your data. What more could you want?

HIGHLIGHTS:

High performance comes as standard: The standard features of the P-4531 MFP and P-4536 MFP include an original feeder for 75 documents and a universal cassette for 500 sheets; they can be expanded to meet any need with up to four additional 500-sheet universal cassettes. Hard drives, network or WLAN cards can also be added to ensure that the systems meet your requirements, meaning you'll be prepared for whatever tasks come your way.

Protecting the environment: The strictest environmental regulations were taken into account during the earliest design stages of these two multifunctional systems and the final products live up to those standards. You reap the benefits of energy-efficient systems with long-lasting materials that go easy on your budget and also make a positive contribution to reducing waste.

Quiet worker: Despite printing and copying at an impressive rate of 45 A4 pages per minute and scanning at 60 images per minute, the P-4531 MFP and P-4536 MFP are amazingly quiet; they can be set to 'quiet mode' to ensure that they work at a whisper-quiet volume whenever necessary. This can be a real relief for your ears and your nerves when things get hectic in the office!

Play it safe: The systems effectively protect your documents from access by third parties. You can password-protect your print job by using the 'private printing' function, for example, or you can use an optional card reader in connection with the Card Authentication Kit for individual users to automatically authenticate themselves. And if an optional hard drive is installed, you can use the Data Security Kit* to effectively protect the data on it.

UTAX has been a trade mark for professional office technology since 1961. As the partner of a German wide dealer network and international distribution, we are specialised in the distribution and integration of printing, copying and multifunctional systems in corporate IT and public sector, amongst others. With the MDS solution UTAX smart for example, output systems can be controlled regardless of the manufacturer and the infrastructure can be optimised in line with demands. UTAX recommends the use of original UTAX accessories for trouble-free operation of your system. For recommended print media refer to the user manual. UTAX and the UTAX logo are registered trade marks of TA Triumph-Adler GmbH. All other brand names referred to are registered trade marks of the respective manufacturers.
