

according to Regulation (EC) No 1907/2006 (REACH)

SDS Number: CK8511C-TA-UT-04-EN

Revision date: 06/10/2022

Version: 04

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product identifier			
	Product name	Cyan Toner for		
		2506ci, 2507ci		
	Consumable name	CK-8511C		
	Product form	Mixture		
1.2	Relevant identified us	ses of the substance or mixture and uses advised against		
	Identified uses	The image formation of our electrophotographic equipment. Other uses are not recommended.		
1.3	Details of the supplie	lier of the safety data sheet		
	Manufacturer	KYOCERA Document Solutions Inc.		
	Address	1-2-28 Tamatsukuri, Chuo-ku, Osaka 540-8585, Japan		
	Supplier	TA Triumph-Adler GmbH		
	Address	Deelbögenkamp 4c 22297 Hamburg Germany		
1.4	Emergency telephone	e number +49 (0) 40 / 528490 (This number is available only during office hours)		

SECTION 2: Hazards identification

2.1	Classification of the substance or mixture
	Classification according to Regulation (EC) No 1272/2008 (CLP)
	Not classified as hazardous mixture.
2.2	Label elements
	Labelling according to Regulation (EC) No 1272/2008 (CLP)
	Not applicable.
2.3	Other hazards
	Assessment of PBT/vPvB
	No data available.
	See section 4 and 11 for information on health effects and symptoms. See section 9 for dust explosion information.

4.2 Most important symptoms and effects, both acute and delayed Potential health effects and symptoms Inhalation: Prolonged inhalation of excessive dusts may cause lung damage. Use of this product as intended does not result in prolonged inhalation of excessive toner dusts. Skin contact: Unlikely to cause skin irritation. Eye contact: May cause transient eye irritation. Ingestion: Use of this product as intended does not result in ingestion. 4.3

Indication of any immediate medical attention and special treatment needed

No additional information available.

SECTION 5: Firefighting measures

5.1 **Extinguishing media**

Suitable extinguishing media

Water spray, foam, powder, CO₂ or dry chemical

Unsuitable extinguishing media

None specified.

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products: Carbon dioxide, Carbon monoxide

5.3 Advice for firefighters

Fire-fighting procedures

Pay attention not to blow away dust. Drain water off around and decrease the atmosphere temperature to extinguish the fire.

Protection equipment for firefighters

None specified.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Avoid inhalation, ingestion, eye and skin contact in case of accidental release. Avoid formation of dust. Provide adequate ventilation.

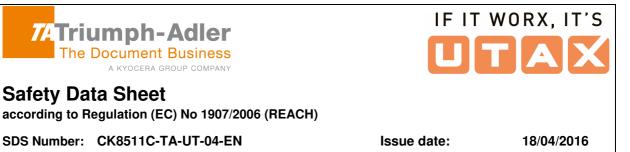

6.2 **Environmental precautions**

Do not allow to enter into surface water or drains.

6.3 Methods and material for containment and cleaning up

Gather the released powder not to blow away and wipe up with a wet cloth.

Safety Data Sheet

Version:

6.4 **Reference to other sections**

SDS Number: CK8511C-TA-UT-04-EN

See section 13 for disposal information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Do not attempt to force open or destroy the toner container or unit. See installation guide of this product.

7.2 Conditions for safe storage, including any incompatibilities

Keep the toner container or unit tightly closed and store in a cool, dry and dark place. Keep away from fire. Keep out of the reach of children.

7.3 Specific end use(s)

No additional information available.

SECTION 8: Exposure controls/personal protection

8.1 **Control parameters**

(Reference data)

US ACGIH Threshold Limit Values (TWA)

Particles: 10 mg/m³ (Inhalable particles) 3 mg/m³ (Respirable particles) Manganese inorganic compounds (Ferrite component):

0.1 mg/m³ (Inhalable fraction)

0.02 mg/m³ (Respirable fraction) (as Mn)

Titanium dioxide: 10 mg/m³

US OSHA PEL (TWA)

Particles: 15 mg/m³ (Total dust) 5 mg/m³ (Respirable fraction) Manganese compounds (Ferrite component): 5 mg/m³ (Ceiling) (as Mn) Amorphous silica: 80 mg/m³/%SiO₂ Titanium dioxide: 15 mg/m³ (Total dust)

EU-Occupational exposure limits: Directive (EC) 2000/39, (EC) 2006/15 and (EU) 2009/161

Not listed.

8.2 **Exposure controls**

Appropriate engineering controls

Special ventilator is not required under normal intended use. Use in a well-ventilated area.

Personal protective equipment

Respiratory protection, eye protection, hand protection, skin and body protection are not required under normal intended use.

Environmental exposure controls

No additional information available.

according to Regulation (EC) No 1907/2006 (REACH)

SDS Number: CK8511C-TA-UT-04-EN

Version: 04

SECTION 9: Physical and chemical properties

Information on basic physical and che	mical properties
Appearance	
Physical state	Solid (fine powder)
Colour	Cyan
Odour	Odourless
Odour threshold	No data available.
рН	No data available.
Melting point [°C]	100-120 (Toner)
Boiling point	No data available.
Flash point	No data available.
Evaporation rate	No data available.
Flammability (solid, gas)	No data available.
Upper flammability or explosive limit	No data available.
Lower flammability or explosive limit	No data available.
Vapour pressure	No data available.
Vapour density	No data available.
Relative density [g/cm3]	1.2-1.4 (Toner)
Solubility (ies)	Almost insoluble in water.
Partition coefficient: n-octanol/water	No data available.
Auto-ignition temperature	No data available.
Decomposition temperature	No data available.
Viscosity	No data available.
Explosive properties	No data available.
Oxidizing properties	No data available.

9.2 Other information

Dust explosion properties

Dust explosion is improbable under normal intended use. Experimental explosiveness of toner is classified into the same rank such kind of powder as flour, dry milk and resin powder according to the pressure rising speed.

according to Regulation (EC) No 1907/2006 (REACH)

SECTION 10: Stability and reactivity

04

10.1 Reactivity

No data available.

10.2 Chemical stability

This product is stable under normal conditions of use and storage.

10.3 Possibility of hazardous reactions

Hazardous reactions will not occur.

10.4 Conditions to avoid

None specified.

10.5 Incompatible materials

None specified.

10.6 Hazardous decomposition products

Hazardous decomposition products are not to be produced.

SECTION 11: Toxicological information

11.1	Information on toxicological	effects	
	Based on available data, the classification criteria listed below are not met.		
	Acute toxicity		
	Oral (LD50)	> 2000 mg/kg (rat)* (Toner) > 2000 mg/kg (rat)** (Carrier)	
	Dermal (LD50)	No data available (Toner). No data available (Carrier).	
	Inhalation (LC50(4hr))	> 5.10 mg/l (rat)* (Toner)	
	Skin corrosion/irritation		
	Acute skin irritation	Non-irritant (rabbit)* (Toner) Non-irritant (rabbit)** (Carrier)	
	Serious eye damage/irritation		
	Acute eye irritation	Mild irritant (rabbit)* (Toner)	
	Respiratory or skin sensitization		
	Skin sensitization	Non-sensitizing (mouse)* (Toner) Non-sensitizing** (Carrier)	

according to Regulation (EC) No 1907/2006 (REACH)

Safety Data Sheet

Version:	04	Replace version:	03
Revision date:	06/10/2022	Effective date:	06/10/2022
SDS Number:	CK8511C-TA-UT-04-EN	Issue date:	18/04/2016

11.1	Germ cell mutagenicity	Ames test is negative (Toner). Ames test is negative** (Carrier). *(Based on test result of similar product)	
		**(Based on test result of constituent materials)	
	Information of ingredients:		
	No mutagen according	to MAK, TRGS905 und (EC) No 1272/2008 Annex VI.	
	Carcinogenicity		
	Information of ingredients:		
		cinogen (except Titanium dioxide) according to IARC, Japan n, ACGIH, EPA, OSHA, NTP, MAK, California Proposition 65, 2008 Annex VI.	
	The IARC reevaluated Titanium dioxide as a Group 2B carcinogen (possibly carcinogeni humans) as the result of inhalation exposure tests in rats. But, oral/skin test does not she carcinogenicity (2). In the animal chronic inhalation studies for Titanium dioxide, the lung tumour was observed only in rats. It is estimated that this is attributed to the overload of lung clearance mechanism (overload phenomenon) (3). The inhalation of excessive Titan dioxide does not occur in normal use of this product. Also, epidemiological studies to dat have not revealed any evidence of the relation between occupational exposure to Titaniu dioxide and respiratory tract diseases.		
	Reproductive toxicity		
	Information of ingredients:		
	No reproductive toxicar (EC) No 1272/2008 An	nt according to MAK, California Proposition 65, TRGS 905 und nex VI.	
	STOT-single exposure	No data available.	
	STOT-repeated exposure	No data available.	
	Aspiration hazard	No data available.	
	Chronic effects		
	of lung fibrosis was observed ir exposure group, and a minimal middle (4mg/m ³) exposure grou	alation exposure to a typical toner, a mild to moderate degree n 92% of the rats in the high concentration (16 mg/m ³) to mild degree of fibrosis was noted in 22% of the animal in the up (1). But no pulmonary change was reported in the lowest most relevant level to potential human exposures.	

Other information No data available.

SDS Number:	CK8511K-TA-UT-04-EN	Issue date:	18/04/2016

11.1	Germ cell mutagenicity	Ames test is negative (Toner).
	Gerni cen indtagenicity	Ames test is negative (Toner). Ames test is negative** (Carrier).
		*(Based on test result of similar product)
		**(Based on test result of constituent materials)
	Information of ingredients:	
	No mutagen according	g to MAK, TRGS905 und (EC) No 1272/2008 Annex VI.
	Carcinogenicity	
	Information of ingredients:	
	according to IARC, Japan Ass	rcinogen (except Titanium dioxide and Carbon Black) sociation on Industrial Health, ACGIH, EPA, OSHA, NTP, 5, TRGS 905 and (EC) No 1272/2008 Annex VI.
	(possibly carcinogenic to hum oral/skin test does not show ca the development of lung tumo Black at level that induce parti models other than rats have n tumours. Moreover, a two yea Carbon Black demonstrated n in rats (1). In the animal chron observed only in rats. It is esti clearance mechanism (overload dioxide does not occur in norm	um dioxide and Carbon Black as a Group 2B carcinogen ans) as the result of inhalation exposure test in rats. But, arcinogenicity (2). The evaluation of Carbon Black is based upon urs in rat receiving chronic inhalation exposures to free Carbon icle overload of the lung. The studies performed in animal ot demonstrated an association between Carbon Black and lung rs cancer bioassay using a typical toner preparation containing to association between toner exposure and tumour development ic inhalation studies for Titanium dioxide, the lung tumour was mated that this is attributed to the overload of rat's lung ad phenomenon) (3). The inhalation of excessive Titanium nal use of this product. Also, epidemiological studies to date ce of the relation between occupational exposure to Titanium iseases.
	Reproductive toxicity	

Information of ingredients:

No reproductive toxicant according to MAK, California Proposition 65, TRGS 905 und (EC) No 1272/2008 Annex VI.

STOT-single exposure No data available.

STOT-repeated exposure	No data available.
------------------------	--------------------

Aspiration hazard No data available.

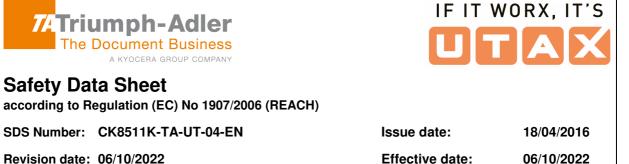

Chronic effects

In a study in rats by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of the rats in the high concentration (16 mg/m³) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animal in the middle (4mg/m³) exposure group (1). But no pulmonary change was reported in the lowest (1mg/m³) exposure group, the most relevant level to potential human exposures.

4.2 Most important symptoms and effects, both acute and delayed Potential health effects and symptoms Inhalation: Prolonged inhalation of excessive dusts may cause lung damage. Use of this product as intended does not result in prolonged inhalation of excessive toner dusts. Skin contact: Unlikely to cause skin irritation. Eye contact: May cause transient eye irritation. Ingestion: Use of this product as intended does not result in ingestion. 4.3 Indication of any immediate medical attention and special treatment needed

No additional information available.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

Water spray, foam, powder, CO₂ or dry chemical

Unsuitable extinguishing media

None specified.

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products: Carbon dioxide, Carbon monoxide

5.3 Advice for firefighters

Fire-fighting procedures

Pay attention not to blow away dust. Drain water off around and decrease the atmosphere temperature to extinguish the fire.

Protection equipment for firefighters

None specified.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Avoid inhalation, ingestion, eye and skin contact in case of accidental release. Avoid formation of dust. Provide adequate ventilation.

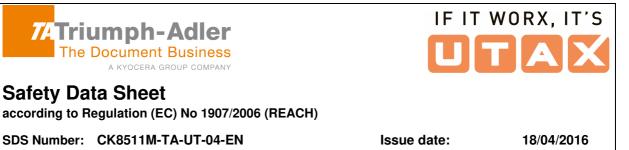

6.2 Environmental precautions

Do not allow to enter into surface water or drains.

6.3 Methods and material for containment and cleaning up

Gather the released powder not to blow away and wipe up with a wet cloth.

Safety Data Sheet

6.4 **Reference to other sections**

SDS Number: CK8511M-TA-UT-04-EN

See section 13 for disposal information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Do not attempt to force open or destroy the toner container or unit. See installation guide of this product.

7.2 Conditions for safe storage, including any incompatibilities

Keep the toner container or unit tightly closed and store in a cool, dry and dark place. Keep away from fire. Keep out of the reach of children.

7.3 Specific end use(s)

No additional information available.

SECTION 8: Exposure controls/personal protection

8.1 **Control parameters**

(Reference data)

US ACGIH Threshold Limit Values (TWA)

Particles: 10 mg/m³ (Inhalable particles) 3 mg/m³ (Respirable particles) Manganese inorganic compounds (Ferrite component):

0.1 mg/m³ (Inhalable fraction)

0.02 mg/m³ (Respirable fraction) (as Mn)

Titanium dioxide: 10 mg/m³

US OSHA PEL (TWA)

Particles: 15 mg/m³ (Total dust) 5 mg/m³ (Respirable fraction) Manganese compounds (Ferrite component): 5 mg/m³ (Ceiling) (as Mn) Amorphous silica: 80 mg/m³/%SiO₂ Titanium dioxide: 15 mg/m³ (Total dust)

EU-Occupational exposure limits: Directive (EC) 2000/39, (EC) 2006/15 and (EU) 2009/161

Not listed.

8.2 **Exposure controls**

Appropriate engineering controls

Special ventilator is not required under normal intended use. Use in a well-ventilated area.

Personal protective equipment

Respiratory protection, eye protection, hand protection, skin and body protection are not required under normal intended use.

Environmental exposure controls

No additional information available.

according to Regulation (EC) No 1907/2006 (REACH)

SECTION 9: Physical and chemical properties

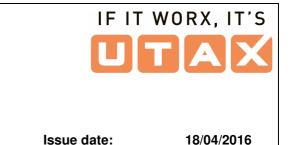

Information on basic physical and chemical properties		
Appearance		
Physical state	Solid (fine powder)	
Colour	Magenta	
Odour	Odourless	
Odour threshold	No data available.	
рН	No data available.	
Melting point [°C]	100-120 (Toner)	
Boiling point	No data available.	
Flash point	No data available.	
Evaporation rate	No data available.	
Flammability (solid, gas)	No data available.	
Upper flammability or explosive limit	No data available.	
Lower flammability or explosive limit	No data available.	
Vapour pressure	No data available.	
Vapour density	No data available.	
Relative density [g/cm ³]	1.2-1.4 (Toner)	
Solubility (ies)	Almost insoluble in water.	
Partition coefficient: n-octanol/water	No data available.	
Auto-ignition temperature	No data available.	
Decomposition temperature	No data available.	
Viscosity	No data available.	
Explosive properties	No data available.	
Oxidizing properties	No data available.	

9.2 Other information

Dust explosion properties

Dust explosion is improbable under normal intended use. Experimental explosiveness of toner is classified into the same rank such kind of powder as flour, dry milk and resin powder according to the pressure rising speed.

SECTION 4:	First aid	measures					
4.1 Desc	cription of	first aid measures					
Inha	lation:	Remove from exposure Consult a doctor in cas					
Skin	contact:	Wash with soap and w	ater.				
Eye	contact:	Flush with water imme	diately and see	a doctor if irritating	J.		
Inge	stion:	Rinse out the mouth. D	rink one or two	glasses of water to	o dilute.		

ion: Rinse out the mouth. Drink one or two glasses of water to dilute. Seek medical treatment if necessary.

according to Regulation (EC) No 1907/2006 (REACH)

SDS Number:	CK8511Y-TA-UT-04-EN	Issue date:	18/04/2016
Revision date:	06/10/2022	Effective date:	06/10/2022
Version:	04	Replace version:	03

4.2 Most important symptoms and effects, both acute and delayed Potential health effects and symptoms Inhalation: Prolonged inhalation of excessive dusts may cause lung damage. Use of this product as intended does not result in prolonged inhalation of excessive toner dusts. Skin contact: Unlikely to cause skin irritation. Eye contact: May cause transient eye irritation. Ingestion: Use of this product as intended does not result in ingestion. 4.3 Indication of any immediate medical attention and special treatment needed

No additional information available.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

Water spray, foam, powder, CO₂ or dry chemical

Unsuitable extinguishing media

None specified.

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products: Carbon dioxide, Carbon monoxide

5.3 Advice for firefighters

Fire-fighting procedures

Pay attention not to blow away dust. Drain water off around and decrease the atmosphere temperature to extinguish the fire.

Protection equipment for firefighters

None specified.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Avoid inhalation, ingestion, eye and skin contact in case of accidental release. Avoid formation of dust. Provide adequate ventilation.

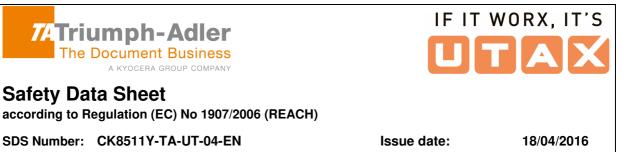

6.2 Environmental precautions

Do not allow to enter into surface water or drains.

6.3 Methods and material for containment and cleaning up

Gather the released powder not to blow away and wipe up with a wet cloth.

Revision date: 06/10/2022

SDS Number: CK8511Y-TA-UT-04-EN

Safety Data Sheet

Version: 04 **Replace version:**

Effective date:

06/10/2022 03

6.4 **Reference to other sections**

See section 13 for disposal information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Do not attempt to force open or destroy the toner container or unit. See installation guide of this product.

7.2 Conditions for safe storage, including any incompatibilities

Keep the toner container or unit tightly closed and store in a cool, dry and dark place. Keep away from fire. Keep out of the reach of children.

7.3 Specific end use(s)

No additional information available.

SECTION 8: Exposure controls/personal protection

8.1 **Control parameters**

(Reference data)

US ACGIH Threshold Limit Values (TWA)

Particles: 10 mg/m³ (Inhalable particles) 3 mg/m³ (Respirable particles) Manganese inorganic compounds (Ferrite component):

0.1 mg/m³ (Inhalable fraction)

0.02 mg/m³ (Respirable fraction) (as Mn)

Titanium dioxide: 10 mg/m³

US OSHA PEL (TWA)

Particles: 15 mg/m³ (Total dust) 5 mg/m³ (Respirable fraction) Manganese compounds (Ferrite component): 5 mg/m³ (Ceiling) (as Mn) Amorphous silica: 80 mg/m³/%SiO₂ Titanium dioxide: 15 mg/m³ (Total dust)

EU-Occupational exposure limits: Directive (EC) 2000/39, (EC) 2006/15 and (EU) 2009/161

Not listed.

8.2 **Exposure controls**

Appropriate engineering controls

Special ventilator is not required under normal intended use. Use in a well-ventilated area.

Personal protective equipment

Respiratory protection, eye protection, hand protection, skin and body protection are not required under normal intended use.

Environmental exposure controls

No additional information available.

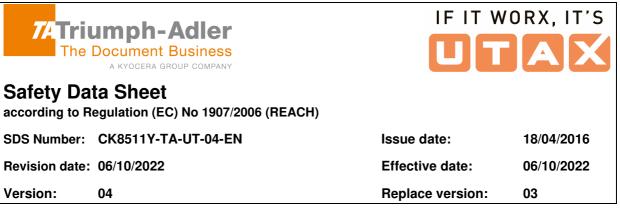

SDS Number: CK8511Y-TA-UT-04-EN

Safety Data Sheet

Revision date: 06/10/2022

04

Version:

SECTION 9: Physical and chemical properties

Appearance	
Physical state	Solid (fine powder)
Colour	Yellow
Odour	Odourless
Odour threshold	No data available.
рН	No data available.
Melting point [°C]	100-120 (Toner)
Boiling point	No data available.
Flash point	No data available.
Evaporation rate	No data available.
Flammability (solid, gas)	No data available.
Upper flammability or explosive limit	No data available.
Lower flammability or explosive limit	No data available.
Vapour pressure	No data available.
Vapour density	No data available.
Relative density [g/cm ³]	1.2-1.4 (Toner)
Solubility (ies)	Almost insoluble in water.
Partition coefficient: n-octanol/water	No data available.
Auto-ignition temperature	No data available.
Decomposition temperature	No data available.
Viscosity	No data available.
Explosive properties	No data available.
Oxidizing properties	No data available.

9.2 Other information

Dust explosion properties

Dust explosion is improbable under normal intended use. Experimental explosiveness of toner is classified into the same rank such kind of powder as flour, dry milk and resin powder according to the pressure rising speed.

according to Regulation (EC) No 1907/2006 (REACH)

SDS Number: CK8511Y-TA-UT-04-EN

Issue date:	18/04/2016
Effective date:	06/10/2022
Replace version:	03

SECTION 10: Stability and reactivity

04

10.1 Reactivity

No data available.

10.2 Chemical stability

This product is stable under normal conditions of use and storage.

10.3 Possibility of hazardous reactions

Hazardous reactions will not occur.

10.4 Conditions to avoid

None specified.

10.5 Incompatible materials

None specified.

10.6 Hazardous decomposition products

Hazardous decomposition products are not to be produced.

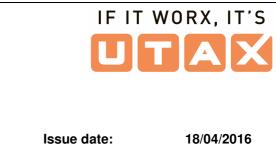

SECTION 11: Toxicological information

11.1	Information on toxicological effects			
	Based on available data, the classification criteria listed below are not met.			
	Acute toxicity			
	Oral (LD50)	> 2000 mg/kg (rat)* (Toner) > 2000 mg/kg (rat)** (Carrier)		
	Dermal (LD50)	No data available (Toner). No data available (Carrier).		
	Inhalation (LC50(4hr))	> 5.10 mg/l (rat)* (Toner)		
	Skin corrosion/irritation			
	Acute skin irritation	Non-irritant (rabbit)* (Toner) Non-irritant (rabbit)** (Carrier)		
	Serious eye damage/irritation			
	Acute eye irritation Mild irritant (rabbit)* (Toner)			
	Respiratory or skin sensitization			
	Skin sensitization	Non-sensitizing (mouse)* (Toner) Non-sensitizing** (Carrier)		

according to Regulation (EC) No 1907/2006 (REACH)

Safety Data Sheet

Version:	04	Replace version:	03
Revision date:	06/10/2022	Effective date:	06/10/2022
SDS Number:	CK8511Y-TA-UT-04-EN	Issue date:	18/04/2016

11.1	Germ cell mutagenicity	Ames test is negative (Toner). Ames test is negative** (Carrier). *(Based on test result of similar product)			
		**(Based on test result of constituent materials)			
	Information of ingredients:				
	No mutagen according	to MAK, TRGS905 und (EC) No 1272/2008 Annex VI.			
	Carcinogenicity				
	Information of ingredients:				
		cinogen (except Titanium dioxide) according to IARC, Japan h, ACGIH, EPA, OSHA, NTP, MAK, California Proposition 65, 2008 Annex VI.			
	humans) as the result of inhala carcinogenicity (2). In the anim tumour was observed only in ra lung clearance mechanism (ov dioxide does not occur in norm	n dioxide as a Group 2B carcinogen (possibly carcinogenic to tion exposure tests in rats. But, oral/skin test does not show al chronic inhalation studies for Titanium dioxide, the lung ats. It is estimated that this is attributed to the overload of rat's erload phenomenon) (3). The inhalation of excessive Titanium al use of this product. Also, epidemiological studies to date e of the relation between occupational exposure to Titanium seases.			
	Reproductive toxicity				
	Information of ingredients:				
	No reproductive toxical (EC) No 1272/2008 An	nt according to MAK, California Proposition 65, TRGS 905 und nex VI.			
	STOT-single exposure	No data available.			
	STOT-repeated exposure	No data available.			
	Aspiration hazard	No data available.			
	Chronic effects				
	of lung fibrosis was observed in exposure group, and a minimal middle (4mg/m ³) exposure grou	nalation exposure to a typical toner, a mild to moderate degree n 92% of the rats in the high concentration (16 mg/m ³) I to mild degree of fibrosis was noted in 22% of the animal in the up (1). But no pulmonary change was reported in the lowest most relevant level to potential human exposures.			
	Other information	No data available.

Version: 04

SECTION 12: Ecological information

12.1 Toxicity

No data available.

12.2 Persistence and degradability

No data available.

12.3 Bio accumulative potential

No data available.

12.4 Mobility in soil

No data available.

12.5 Results of PBT and vPvB assessment

No data available.

12.6 Other adverse effects

No additional information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Do not attempt to incinerate the toner container or unit and the waste toner yourself. Dangerous sparks may cause burn. Any disposal practice should be done under conditions which meet local, state and federal laws and regulations relating to waste (contact local or state environmental agency for specific rules).

SECTION 14: Transport information

14.1 UN-number

None.

14.2 UN Proper shipping name

None.

14.3 Transport hazard class(es)

None.

14.4 Packing group

None.

14.5 Environmental hazards

None.

according to Regulation (EC) No 1907/2006 (REACH)

SDS Number:	CK8511Y-TA-UT-04-EN	Issue date:	18/04/2016

14.6 Special precautions for user

No additional information available.

14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

Not applicable.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU-regulations

Regulation (EC) No 1005/2009 (on substances that deplete the ozone layer, Annex I and II): Not listed.

Regulation (EU) 2019/1021 (on persistent organic pollutants, Annex I as amended):

Not listed.

Regulation (EU) No 649/2012 (concerning the export and import of dangerous chemicals, Annex I and V as amended):

Not listed.

Regulation (EC) No 1907/2006 REACH Annex XVII as amended (Restrictions on use):

Not listed.

Regulation (EC) No 1907/2006 REACH Annex XIV as amended (Authorizations):

Not listed.

US-regulations

All ingredients in this product comply with order under TSCA.

Canada regulations

This product is not a WHMIS-controlled product, since we consider it as a manufactured article.

15.2 Chemical Safety Assessment

No data available.
